

Monte Cristo I Windpower

Terra-Gen's Monte Cristo Windpower, located in Hidalgo County, is advancing Texas clean energy goals with modern wind technology and strategic infrastructure investment.

Situated on 17,000 acres of leased farm and ranch land, the 238.5-megawatt facility features 53 turbines capable of producing more than 850 gigawatt-hours of clean electricity annually, enough to power about 81,000 homes a year.

Project Highlights

- 53 wind turbines
- 238.5 MW / 850 GWh capacity
- Tallest wind turbines in South Texas: 638 feet high
- 81,000+ homes powered

Benefits

- Over \$3 million spent locally during construction
- More than \$100 million in property taxes, landowner payments, and local contributions will be paid over the life of the project
- More than 280 construction jobs created at peak of activities
- Improvements to more than 36 miles of TX DOT and county roads.

Customers

- Capacity sold under two PPA to two corporate buyers

Location

- Hidalgo County, Texas
